

PLAY PARTIES

Play parties were singing games enjoyed by younger folks during the 1800s. President Lincoln enjoyed this activity during his childhood days and is said to have clapped and sang loudly.

We are sure that President Lincoln also played games or was familiar with games like hopscotch, marbles, and jump rope.

This is a great time to have a play party of your own. You can have a one person play party or a play party with family or friends.

Our Play Party Guide has songs, games and directions for things you can do if you want to sing, dance, or jump.

Don't forget to take a photo or video and share with Lincoln Days.
